iCare Solutions and Church Resources Announce Partnership

iCare Solutions Pty Ltd (“iCare”), Australia’s leading provider for clinical and care solutions to aged care, and Church Resources, Australia’s leading non-profit purchasing group, have signed an exclusive agreement giving iCare access to 1,000 non-profit aged care providers across the industry.

After careful investigation over the past 12 months, Church Resources together with iCare would now like to announce ***the new exclusive “Preferred Supplier” agreement for the provision of clinical and care management solutions for Australian residential aged care.***

Under the iCare Preferred Supplier Agreement Church Resources members will receive a discount for all purchases of iCare’s Clinical and Care Management Solution now and into the future.

Rohan Vendy, Chief Executive Officer of iCare, said that this exhaustive process will have industry wide benefits for providers. “We are excited at the flow on effects that this decision has for the industry. With an increased capacity for product and service excellence, we further increase our long term commitment to delivering tangible value across the industry”.

Martin Tuelan, Chief Operating Officer of Church Resources, said Church Resources wanted the best possible solution for the best price for all its member organisations. “We chose iCare Solutions, the leader in Clinical and Care Management solutions to the industry, because:

- iCare demonstrates improved business efficiency and quality of care.
- iCare is both a robust, reliable solution but also the leading technology, while others are left years behind. iCare is a Microsoft Certified Partner with Independent System Vendor (ISV) status.
- iCare will create additional long term value in your business with its ability to allow a continuum of information across health providers. iCare’s seamless integration with Medical Director is just one example of this unique offering.
- Put simply, iCare creates efficiency at the heart of your organisation.”

About iCare Solutions

iCare is based in Melbourne with clients in all states and territories. iCare delivers operational efficiencies for nurses and care staff by delivering a Clinical and Care Management Solution, available via PCs, Touch Screens or mobile devices such as Tablets and PDAs. iCare's Clinical and Care Management Solution automatically integrates documentation through a single point of entry system that is underpinned by evidence based practice.

iCare's Clinical and Care Management Solution also integrates Progress Notes, Care Plans, Forms and Charts, Handover Sheets, Scheduled Tasks, RCS Calculation and Management Reporting.

Developed specifically for the aged and community care sector, the heart of the iCare system is 30 years of in-depth clinical knowledge available from the iCare database. The Solution is underpinned by an expert system, which provides diagnostic decision support and care management tools.

iCare is also a member of the successful consortium to administer the National Trials for the new Aged Care Funding Instrument (AFCI) and a member of the eBusiness Working Group for the electronic delivery of information.
